

Description

PA Wind Driven Rain Resistance Louvre Grille (Model: WPL) is designed for Fresh Air and Exhaust Air application for MV System. It is suitable for wall mounted and standard constructed from extruded aluminium. Finishing for WPL is standard powder coated in white colour, other colours are available upon request.

Installation Guideline

1. Accessories Connection

List of available accessories for WPL:

- Wire Mesh (WM)
- Insect Screen (IS)

All accessories used for the WPL must secure and tighten to the back of the WPL with the use of a minimum of two M5 self-tapping screws on each side of the neck of the WPL before the installation work can be carried out

2. Opening Clearance

The hole opening on the wall or ceiling shall be larger than the combination of the WPL's neck with its respective accessories combination to permit the installation of the system and the gap should be within 5mm of the overall size of the WPL's neck and its accessories combination.

3. Installation Detail

A. Mounting Angle Installation

Install mounting angle to the grille frame and the wall opening at the indoor part. Place a minimum of two mounting angles at each side of the frame. Install M10 mounting screws to attached the mounting angle to the wall. Tighten screws into narrow end of the slot.
