DRUM LOUVRE INSTALLATION DETAIL  
DOC NO.: 2024-INS-014

## Description

PA Drum Louvre (Model: DL) is designed for Supply Air application for AC System. It is suitable for Duct mounted and standard constructed from extruded aluminium. Finishing for DL is standard powder coated in white colour, other colours are available upon request.

## Installation Guideline

### 1. Opening Clearance

The hole opening on the wall or ceiling shall be larger than the combination of the DL's neck with its respective accessories combination to permit the installation of the system and the gap should be within 5mm of the overall size of the DL's neck and its accessories combination.

### 2. Installation Detail

#### A. Concealed Mounting (Ceiling Mounted)

After insert the DL into the opening hole, direct secure the DL with the use of an M5 countersunk screw on the frame of the DL tighten it until the surface of the DL is flush with the ceiling or wall.
