

Description

PA Ball Jet Diffuser (Model: BJD) is designed for Supply Air application for AC System. It is suitable for wall mounted and long-range throw distance applications and standard constructed from extruded aluminium. Finishing for BJD is in bare aluminium, other colours are available upon request.

Installation Guideline

1. Opening Clearance

The hole opening on the wall or ceiling shall be larger than the combination of the BJD's neck with its respective accessories combination to permit the installation of the system and the gap should be within 5mm of the overall size of the BJD's neck and its accessories combination.

2. Installation Detail

A. Countersunk Screw Mounting

After insert the BJD into the opening hole, direct secure the BJD to the wall with the use of an M5 self-tapping screw on the frame of the BJD tighten it until the surface of the BJD is flush with the wall.
